DOMESTIC MATTERS.

DR. RICHMOND, held forth here on Monday humor and sarcasm, making many good points, the Buffalo papers are in great tribulation about but lacking the elements of concentration and it. logical connection and force to turn them to advantage. A little change in the elements of his mental compost, and a freedom from that odor of instability and vascilation, which hangs about the Dr., would rank him as a strong man, and instead of the uncertain baze which pow surrounds him, be might enjoy a reputation as enviable for its substantial ability, as the more attractive qualities of lustre and brilliancy .-His barranged was vehement, excoriating to his opponents, and fullsome and overdrawn towards his friends, provocative of mirth and fun, rambwho turned out to listen-an entertainment worth more in a sanitary point of view, than the entire contents of a medicine chest. The manner in which he treated the present game of at law was synonymous with equity and justice, had exposed himself to its process of pecuniary depletion. The declaration of the Dr., that he will yet go to Congress, we hardly think he will realize the truth of. His arm is too puny against such fearful odds.

FINE CORN .- Capt. CHAS. SHEPHERD, residing on the Lake Shore, left at our office on Tuesday last, a dozen ears of eight-rowed, flint corn, in kind, such as we have been in the habit of seeing in Connecticut. The cars measure about a foot in length, and the kernels are of enormous size. It is a specimen not easily named. beaten, and was not surpassed, we think, by anything on the fair ground, where the Capt. intended, but failed to have exhibited it. It is worth a call, to see it.

Anorma Saurte -Joun Munris, has left another sample of corn with us, of a dozen ears. It is of the gourd seed species, and is remarkably fine. Mr. Murfin has a field of 'it, which he is confident cannot be beaten in the gross amount of yield. He proposes, notwithstanding the first premium, at our fair was taken by another competitor, to pit his field, acre for acre, with any other piece in the township, and he will give or take, as any competent committee shall decide.

On election morning a new ticket appeared at the polls-with Mr. Giddings' name inserted for Congress. Aside from this the ticket was the regular Republican. The fact that they were introduced by the personal friends of Mr. Giddings and arged indicating that they were printed at the office of the Sentinel, would lead to the supposition that Mr. Giddings was cognizant of this movement to use his name. But 17 of these tickets were polled, and that was early in the day, before the effect of such a vote was really understood. We have been informed that these bogus tickets were brought here from Jefferson. At this time of writing, we have no means of knowing the extent of the circulation of these tickets in the district, but trust a movement so snicidal to Republican interests, as well as derogatory to Mr. Giddings, has but a limited circulation.

brought out some very fine horses, especial- country." ly matched terms, Another leading and attractive feature of the exhibition, as we are informed by some of our citizens who were present, was the very fine collection of vegetables. They were more uniformly good than is usual. The unfavorable weather interfered with the success of the exhibition much to the regret of all.

FATAL ACCIDENT IN NEW LYYME, -John Kitchen of New Lyme, was killed on Sunday last, in a strange and frightful manner. He was gathering chestnuts; and coming to a large leaning tree full of nuts, he felled it from the lower side. The tree in falling, split and a pice striking Mr. K. in the abdomen, cut through to the back-bone, causing his death in one hour. The deceased leaves a wife a one child to mourn his loss. Sentinel.

DEWELL FAIR .- Brother ALLEN, of the Reporter, was at the Orwell Fair and gives a full day, the last day, proven a somewhat serious interposition.

ASSTABLIA FARMER'S CLUB. - As there was some misunderstanding on the part of some of the officers of the "Farmer's Club," in reference to some entries at the late Fair, the committee on class 6, awarded first premium to W. H Landon, for 2 year old steers, while, if for 2 year old sfeers broke, had been the standard, the first premidin would have justly belonged to Peter Fuller of Plymouth. J. P. JENNINGS, Pres't.

THE COMET -It seems that the comet is exercising a very corrupting influence in Buffalo, asys the Albany Argus. As four o'clock in to MARK's daughter of Bulkley Bulkl the morning is the best time to view the celestial visitor, a great number of Buffalo gentiemen have got into the habit of sitting up till that time about seven nights in the week, to THE AWARD OF PREMICES, at our township pay their respects; and owing to the stimulat-Fair, will be found on the first page of this pa- ing processes which they find it necessary to resphand Helen E Graham. sort too, to keep awake so long, these amateur astronomers have commenced seeing two comets evening last, to a very fair audience. He will, for instance, tell us who set Dr. Richmond up. If any body is at a loss on this point, we would refer them to the last few numbers of the Sentinel, to learn who had a hand in it. Mr. Giddings, no doubt, is innocent in the matter, but the one who plays jackall to Mr. G.'s lion, very clearly, was not as ignorant or unmoved as he unquestionably is about some after things, that might be

> STOLEN .- A dark chestnut colored mare and top buggy was stolen from STANTON & Bao's stable on the 7th inst., by a genteel scoundrel of about 5 feet 8 inches bigh of light complexion, whiskers, clothing and hat, and patent leather boots. He was traced into the southern part of the county. A reward of \$100 is offered for his apprehension and the recovery of the property.

The Managers of the County Agricultural Society met on Wednesday, at Jefferson, in persuance of the call of the President, Shelly Smith. There is something to be considered in connection with the permanency of our Fairs, both County and Independent, and we suggest that a Concention be called at some central point, and delegates be chosen to represent the various Societies in this and the adjoining counties. There is need of uniformity in the terms of membership and admission, and until this upon the voters, and the paper and type is secured, there will be more or less of conflicting views. The interest of those who contribute to make our Exhibitions salutary, demands some action of this sort, and we throw out the idea for consideration. Reporter.

> DISCIPLINE IN A SINKING SHIP. - When and make, the British troop steam transport Birkenhead struck a rock, near the Cape of Good Hope, and broke in two, there were only boats enough to save the women and children. There was no rushing or crowding then. Col. Moore called his brave Inniskillens and formed them into line on the deck of the sinking steamer, while their wives and children embarked in the boats. During a late visit to the City of Spiniles, we were presented by a professional friend, in the colebrated Chemist, Dr. J. C. Dr. Roback's Scandinavian Remedies, In Pr. Roback's Scandinavian Remedies. In itecting the attention of our readers to Dr. Roback's adversement, we have no hesitation in saying that all he claims or his medicines is confirmed by certificates from all parts of his West. The language of these certificate is so carriest and rateful, and the carrs refer to such a variety of discusse, that would be fully to question the restorative properties of the reparations. It appears that while botaning among his nave mountains, in Sweden, during a visit to that country some cars ago, he collected a large quantity of rare medicinal eries, unknown in this country, and by combining the liquids and suit extracts of those possessing aswerded detergant prosolid extracts of those possessing powerful detergent pro-ies, he succeeded in producing his celebrated Blood Purf-and Heart Pills, which are said to exercise a more benefir and Hood Fills, which are said to exercise a more benefi-al effect upon the fluids of the human body than any other tratives in existence. Dr. Roback's theory is, that all dis-sess originate in the blood, and it would seem that the rapid ecovery of his patients, under a course of these disintectants, fords strong presumptive evidence that his pathology is est-et., Certain it is that the celebrity of his medicines increas-ed ally, and that he has authentic proofs of their success in is possession.
